The new lines are emphasized in the two models shown above. Porter House, makers of junior sportswear, runs the yoke of its zip front cardigan jacket horizontally, with a drop shoulder and a set-in three quarter sleeve. Instead of the usual straight-line skirt, this one has slashed front pockets and a contoured waistline. Terina's coat also runs the yoke ribs horizontally, but, of all things, the sleeves have been cut diagonally into a dolman effect so that the coat can be worn easily over a suit. It has a trim, slim look rather than bulk.

For the practical-minded, there's an added attraction to these corduroys. It's the Syl-mer tag, which means that they are water-repellant, stain-resistant and have amazing wrinkle recovery. This new silicone finish also provides a smoother, softer feel, imparting extra luxury to the traditional ruggedness of

Ladies, a vote for gas is a vote for cooler cooking!

(down with hangover heat!)

Turn a gas burner off . . . and it's OFF! There's none of the hangover heat you find with electric ranges-wasted heat that causes boilevers and burned foods. Gas broiling is cooler, too, because you broil with the door closed. And it's smoke-proof broiling—(the flame consumes the smoke!) With gas your kitchen stays cooler and cleaner! Now's the time to elect a modern gas range to head up your kitchen: it's sale time!

One of the youngest bank presidents in the United States, an office to which he was elected at the age of 34, Bernard Feinberg follows the "mind-yourmoney" formula for success. Still under 40, he has been responsible for a number of banking firsts.

As a successful investor, Feinberg has helped many of the companies in which he has an interest to improve performance. His advice: "If you're thinking of buying stocks, be ready to follow the earnings performance of the companies. Money management, as much as any other skill, is developed by exercise."

Simply because he takes he time to look at the bills and coins he encounters, Feinberg has developed a one-of-a-kind rare money collection, composed of imperfect legal tender. 'Most people miss a fortune by paying little attention to the money they handle," he concludes.

Designers Give New Elegance to Hardy Corduroys

Corduroy, the all-time favorite for classic casuals, is blossoming out this fall in new dressmaker fashions. No longer are they confined to sportswear. They'll go gracefully to all occasions, day

The use of wide-wale corduroy started all this creativity, for its soft, velvety texture lends to molding and draping; its pattern to interesting manipulation.

The new lines are emphasized in the two models shown above. Porter House, makers of junior sportswear, runs the yoke of its zip front cardigan jacket horizontally, with a drop shoulder and a set-in three quarter sleeve. Instead of the usual straight-line skirt, this one has slashed front pockets and a contoured waistline. Terina's coat also runs the yoke ribs horizontally, but, of all things, the sleeves have been cut diagonally into a dolman effect so that the coat can be worn easily over a suit. It has a trim, slim look rather than bulk.

For the practical-minded, there's an added attraction to these corduroys. It's the Syl-mer tag, which means that they are water-repellant, stain-resistant and have amazing wrinkle recovery. This new silicone finish also provides a smoother, softer feel, imparting extra luxury to the traditional ruggedness of

This season's corduroys are tagged . . . for more versatile and

Turn a gas burner off . . . and it's OFF! There's none of the hangover heat you find with electric ranges—wasted heat that causes boilevers and burned foods. Gas broiling is cooler, too, because you broil with the door closed. And it's smoke-proof broiling—(the flame consumes the smoke!) With gas your kitchen stays cooler and cleaner!
